

 TILSATEC®
PUREHIDE™
PREMIUM LEATHER. CLEAN CHEMISTRY.

The **PUREHIDE™** range combines premium goatskin leather with cleaner chemistry and ergonomic design to deliver lasting comfort, durability and performance.

Soft, supple goatskin provides a naturally comfortable fit, whilst a carefully controlled and compliant tanning process ensures consistently high standards. Independently tested with undetectable levels of chromium in the finished leather, it offers the reassurance of premium leather without unnecessary chemical concerns.

But PUREHIDE™ is about more than the leather.

A gunn cut construction positions seams away from high-wear areas to improve durability while allowing the glove to move naturally with the hand.

Cut resistance is delivered by a thin, lightweight fabric sewn securely into the glove. This construction enhances user comfort and eliminates the slipping & bunching experienced with traditional knitted liners.

Extended roll palm edging repositions side seams to help reduce pressure and irritation during prolonged wear. At the wrist, a tapered, shirred design follows the natural bend of the hand and wrist, creating a closer, more ergonomic fit that stays comfortably in place throughout the working day.

PREMIUM LEATHER.

CLEANER CHEMISTRY.

COMFORT DESIGNED INTO EVERY DETAIL.

PUREHIDE™ Goatskin cut level F
winter glove with Thinsulate™

The 42-7032 is a winter drivers glove designed to keep you protected from the elements and mechanical hazards so you can keep working all year round. Made with premium goatskin, it feels super soft and supple whilst delivering the durability and toughness you need. A soft, inner layer of Thinsulate™ microfleece provides EN511 cold contact protection.

Providing EN388: 2016+A1:2018 level F cut and EN407 heat protection, it's packed with design features to help you get on with the job at hand.

Features & Benefits

- Premium goatskin leather for high comfort and durability
- Steel core fabric inner provides EN388: 2016+A1:2018 level F cut protection
- EN511:2006 level 1 Contact Cold
- EN388: 2016+A1:2018 level F cut protection
- EN407: 2020 contact heat level 1 protection
- Tested for dynamic water resistance to ISO 5403-1
- REACH compliant chemistry for a cleaner leather profile
- Gunn cut construction for improved durability and comfort
- Wing thumb design for better dexterity and grip
- Rolled stitching to reduce irritation
- Easy to take on and off with a pull tab to back of wrist
- Good grip in dry or slightly wet conditions
- FSC vend-packed
