Spec Sheet

TILSATEC® PUREHIDE

PREMIUM LEATHER. CLEAN CHEMISTRY.

The **PUREHIDE™** range combines premium goatskin leather with cleaner chemistry and ergonomic design to deliver lasting comfort, durability and performance.

Soft, supple goatskin provides a naturally comfortable fit, whilst a carefully controlled and compliant tanning process ensures consistently high standards. Independently tested with undetectable levels of chromium in the finished leather, it offers the reassurance of premium leather without unnecessary chemical concerns.

But PUREHIDE™ is about more than the leather.

A gunn cut construction positions the seams away from high-wear areas to improve durability whilst allowing the glove to move naturally with the hand. Extended roll palm edging repositions side seams, helping to reduce pressure and irritation during prolonged wear.

At the wrist, a tapered, shirred design follows the natural bend of the hand and wrist, creating a closer, more ergonomic fit that stays comfortably in place throughout the working day.

PREMIUM LEATHER.

CLEANER CHEMISTRY.

COMFORT DESIGNED INTO EVERY DETAIL.

Tilsatec | +44 (0)1924 375742 | info@tilsatec.com | **www.tilsatec.com**

For businesses who want expertise they can rely on to keep their people safe, Tilsatec offer high performance hand and arm protection. We manufacture our own proprietary cut resistant yarn - the primary source of mechanical protection, on site in the UK. This means we can deliver maximum performance in every fibre of what we do. Because when our gloves perform at their best, your people can perform at their best.
