

088

Antistatic lint free glove

The antistatic 088 glove is designed to repel dust and protect products being handled by dissipating static electricity.

The seamless elasticated knit provides comfort and dexterity, while the extended cuff provides additional protection to the wrist area.

Suitable for industrial washing the glove can be laundered to extend product life span.

Features & Benefits

- Permanent ESD protection to EN1149-1 with a mean resistance of $3.4 \Omega \times 10^3$
- Extended 15cm cuff for added protection
- Silicone free
- Manufactured from continuous filament materials to minimise lint
- May be laundered at 60°C and tumble dried to maximise service life
- Ambidextrous

Applications / Industries

- Pre and post painting areas
- Electronic manufacturing

EN388: 2016

2 X 4 2 A

Antistatic according to the requirements of EN 1149-5 : 2008 using EN 1149-3 : 2004 induction charging test method.

RHINOYARN®

Made with Tilsatec Rhino Yarn technology. Produced in the UK and developed by Tilsatec's specialist team of yarn technologists to deliver the optimum in performance and comfort.

Tilsatec | +44 (0)1924 375742 | info@tilsatec.com | www.tilsatec.com

For businesses who want expertise they can rely on to keep their people safe, Tilsatec offer high performance hand and arm protection. We manufacture our own proprietary cut resistant yarn - the primary source of mechanical protection, on site in the UK. This means we can deliver maximum performance in every fibre of what we do. Because when our gloves perform at their best, your people can perform at their best.
