

49-5410

Rhinoguard™ arm guard

## Features & Benefits

- EN388: 2016 level E cut resistance
- Rhino Yarn™ cut resistant technology
- EN388: 2016 level 4 puncture resistance
- ASTM F2878-10 hypodermic needle test: 5.7 Newtons
- Double width adjustable straps for a secure fit
- The fire resistant properties of RHINOGUARD™ will not diminish with multiple laundering cycles
- RHINOGUARD™ fabric is stable in exposure to temperatures of up to 200°C

## RHINOGUARD

**Extreme Cut & Puncture Protection** 

RHINOGUARD™ is a highly engineered textile composite designed to provide the highest levels of protection against a wide range of puncture hazards. Constructed from an innovative combination of advanced fibres, modified fabric structure and a unique coating technology to deliver high levels of protection against both large and small puncture threats (including needles and syringes).

The 9" sleeve provides all the performance of RHINOGUARD™ in a simple yet effective forearm protection design. With robust fastening strips the sleeve stays firmly in place when in use, can be adjusted for a secure fit and allows for quick and easy removal. As the RHINOGUARD™ fabric provides liquid protection the sleeve is ideal for glass handling, metal forming, waste management and recycling.

## Applications / Industries

- Emergency services:
- Police, Fire Fighters, Search and Rescue.
- Security services
- Local authorities, house clearance teams
- Waste management
- Metal forming / handling

## Performance

team of yarn technologists to deliver the optimum in performance and comfort.

Tilsatec | +44 (0)1924 375742 | info@tilsatec.com | www.tilsatec.com

For businesses who want expertise they can rely on to keep their people safe, Tilsatec offer high performance hand and arm protection. We manufacture our own proprietary cut resistant yarn - the primary source of mechanical protection, on site in the UK. This means we can deliver maximum performance in every fibre of what we do. Because when our gloves perform at their best, your people can perform at their best.

Made with Tilsatec Rhino Yarn technology. Produced in the UK and developed by Tilsatec's specialist
