

50-5121

Medium weight cut resistant foam nitrile palm coated glove with thumb reinforcement

The 50-5121 is part of an innovative new family of hand protection designed to meet the new standards in cut protection in a powerful and high value solution. Providing level E cut resistance and high levels of abrasion resistance the glove will perform in applications requiring durability and exposure to a broad range of high cut hazards. The breathable, sandy foam nitrile palm coating is designed to deliver excellent grip, particularly in dry or oily conditions whilst still allowing the hand to breathe.

Features & Benefits

- EN388: 2016 level E cut resistance
- Rhino Yarn™ cut resistant technology
- High level of abrasion resistance
- EN407 contact heat level 1
- Secure grip, particularly in wet and oily conditions
- Breathable open back and coating reduces perspiration
- Dark colour hides dirt, extending life of the glove
- Seamless liner and cuff gives a smooth, comfortable feel
- Thumb crotch is reinforced for additional durability and resilience

Applications / Industries

- Assembly
- Automotive industry
- Metal fabrication / stamping
- Glass manufacturing
- Transportation
- Construction
- White goods manufacturing
